February
2018

S M Sehgal Foundation (“Sehgal Foundation”) is a public, charitable trust registered in India since 1999. Our mission is to strengthen community-led development initiatives to achieve positive social, economic and environmental change across rural India.

Based in Gurugram, Haryana, Sehgal Foundation is working in 700 villages across six states of India. With support from our donors and partners in the corporate, government and social sectors, the organization advances its mission by working with rural communities to increase agricultural productivity, manage water resources, strengthen grassroots democracy and facilitate citizen participation through good rural governance and community media, putting a strong emphasis on gender equality and women’s empowerment.

To direct Sehgal Foundation’s resources toward its greatest impact, the organization employs a rights-based approach driven by the realization that human rights are central to developing human potential. Through research and dialogue, we design and deliver rural development interventions that create opportunity, build resilience and provide solutions for India’s poorest communities to overcome their most pressing social, economic and environmental challenges.

Sehgal Foundation’s Internship Program
The internship program at Sehgal Foundation is designed to provide a hands on experience to students of the real challenges faced in various facets of rural development. During the course of internship, students put to use their academic learning for real life contexts. Interns obtain experience in their field of study and acquire skills which are helpful in their professional life.

An internship is offered for a specific project under the supervision of the Coordinator of External Relations and the guidance of one or more Project Supervisors. Duration of an internship may range from two to six months. A list of internship projects is available on our website www.smsfoundation.org. The list also states the minimum qualifications required, project duration and location of project work offered.

An intern updates the Coordinator on her/his project progress during weekly/monthly meetings and submits a brief report on the same to the Project Supervisor(s) on a monthly basis or more frequently if requested by the Project Supervisor(s). Towards the end of the internship, an intern makes a presentation on her/his project work to the staff and submits a detailed report during her/his final evaluation.
