MISSION

Our mission is to strengthen community-led development initiatives to achieve positive social, economic, and environmental change across rural India.

WHAT WE DO

We work together with rural communities to create sustainable programs for managing water resources, increase agricultural productivity, and strengthen rural governance. Our team’s emphasis on gender equality and women’s empowerment in each program is driven by the realization that human rights are central to developing every person’s potential.

VISION

We envision every person across rural India empowered to lead a more secure, prosperous, and dignified life.
When we established Sehgal Foundation twenty years ago with a vision to help uplift village communities in rural India, we did not want to be a “charitable” non-governmental organization (NGO) but a “development” NGO that is secular and non-political. In addition, we maintained a firm belief and a driving force that whatever we do must have impact and sustainability. We often heard from other NGOs in the field that sustainability is a “mirage” that every respectable development organization pursues but seldom achieves. In spite of this, we were determined to follow that guiding criteria in our work.

Since so many NGOs in India have a reputation for not being credible or transparent, we took the time to prove ourselves as credible, transparent, and accountable. We are pleased that Sehgal Foundation is now recognized in India as one of the most credible NGOs, known for demonstrating strong ethics, integrity, transparency, honesty, and accountability.

From the beginning, our teams understood that work in the field of development is a never-ending process. Thanks to our talented teams and generous partners from around the globe, work that started in four villages in (Mewat, now Nuh) Haryana, now reaches across India in eight states and continues to expand in collaboration with communities. To assure sustainability, all our projects begin with an initial survey on focused development areas followed by empowering the community with critical training in good rural governance. Monitoring of each project is continuous, and an impact assessment is done at the end. From time to time, we pull back for serious introspection of our work and make whatever changes are needed, discard what may not be working, and inject new ideas to ensure that the communities we serve are being positively impacted.

As long as people are living in poverty without food security, water security, or social justice, we can never be completely satisfied that our work is done. India and many other countries in Asia, Africa, and Latin America are in similar stages of development. The work we do and the technologies we develop are applicable to most of these countries, so we must make sure our work is replicable and dynamic.

We have been honored to present our innovations at the United Nations and offer them freely throughout the world.

We have come a long way in our short history. The growth of our key programs in agriculture development, water management, and good rural governance has been organic and strategic. We have combined aspects of each program in our most successful initiatives such as the Transform Lives one school at a time, which is giving hope for a better future to India’s rural schoolchildren.

As we enter our third decade in rural India, we resolve to continue Sehgal Foundation’s ongoing re-evaluation and reinvention based on positive results and lasting impact. All in all, it is a wonderful feeling to be helping people, society, and the planet, which makes our lives very satisfying. We are proud of what we do!

Suri Sehgal
Founder and Chairman
Combining traditional and modern knowledge and technologies, foundation teams partner with communities to create water augmentation systems that include check dams, rainwater harvesting structures, storage tanks, ponds, soak wells, soak pits, and filtration systems that provide access to safe drinking water. The Foundation’s Water and Wastewater Resource Center at the Rural Technology Park on the National Institute of Rural Development & Panchayati Raj (NIRDPR) campus in Hyderabad showcases working demonstration models of water innovations and technologies, including lightweight biosand water filter, JalKalp.

Key Partners: Axalta, DCB Bank Limited, Pernod Ricard India Foundation, Coca-Cola India Foundation, NIRDPR, Mosaic, Nestle India, HDFC Bank, Gartner India, Department of Science and Technology, Centre for Affordable Water and Sanitation Technology
The agriculture sector employs nearly half of India’s workforce but contributes only 15.8 percent of the GDP. To address the needs of farming communities, foundation teams demonstrate best-management practices and promote farm mechanization, water conservation in agriculture, livestock health and development, and the use of doorstep extension services and other interventions increasing farmers’ incomes.

Crop improvement research work by Sehgal Foundation scientists and researchers is housed at International Crop Research Institute for the Semi-Arid Tropics (ICRISAT), Hyderabad.

Village-level councils and committees are trained to maintain community structures and improvements and to hone their skills in procuring government funds and availing government benefits. The trainings enhance individual and community responsiveness, accountability, and transparency, resulting in growing empowerment.

Sehgal Foundation facilitates digital literacy training for rural youth and promotes its use in learning about and accessing government program information and services that benefit the entire family. Members of village health sanitation and nutrition committees (VHSNCs) constituted in villages under gram sabha are trained about health and health entitlements with a special focus on women and children.

### PROMOTING SOCIAL JUSTICE

- **Villages covered**: 577 (FY 2018-19), 585 (Cumulative Data as of March 2019)
- **Trained sushasan champion, community leaders, mahila sangathans**: 6,985 (FY 2018-19), 24,369 (Cumulative Data as of March 2019)
- **Participation in legal literacy camps**: 1,896 (FY 2018-19), 44,394 (Cumulative Data as of March 2019)
- **Callers used the Citizen Information and Support Center**: 9,576 (FY 2018-19), 26,299 (Cumulative Data as of March 2019)
- **VHSNCs trained**: 32 (FY 2018-19), 151 (Cumulative Data as of March 2019)
- **Construction of toilets facilitated**: 73 (FY 2018-19), 11,764 (Cumulative Data as of March 2019)
Transform Lives one school at a time, launched in late 2016, transforms rural government schools into secure, healthy, and stimulating spaces that encourage children to attend school regularly and improve their learning. The initiative, which has grown quickly with the generous support received from donors and partners, has three components: school repair and renovation, basic life skills education that includes digital literacy training and governance awareness, and capacity building of school management committees (SMCs) to sustain the program components.

Key Partners: Fluor Daniel India Private Limited, ZS Associates India Private Limited, individual donors from USA and India

Community media (on-air, online, and in print) provides a powerful platform for lifting up village voices, empowering and mobilizing individuals and communities, and bringing information to potential partners in rural development.

Sehgal Foundation’s Rural Research team provides an essential support function in all project areas that assists in improving strategies by evaluating and quantifying the impact created by each activity. Findings are provided to donors, communities, and policymakers. Sharing impact information with communities from the beginning helps to ensure greater sustainability of initiatives after implementation teams complete the projects.

Key Partners: MANAGE, CTCRI, AESA, CRISP
Sehgal Foundation engages in strategic partnerships to build strong synergies that help make a greater impact in the lives of rural people, partnering with corporates, government bodies, nonprofits, academia, multilateral organizations, communities, and individuals to help expand the reach and scale of sustainable initiatives.

OUR PARTNERS ADD VALUE

Sehgal Foundation thanks our individual partners for their contributions.

Financials 2018-19

In FY 2018-19, the Sehgal Foundation USA grants to S M Sehgal Foundation amounted to US$ 1,645,613 (Rs 114,930,292). S M Sehgal Foundation also received funding from other organizations amounting to US$ 2,620,407 (Rs 182,858,569). To date the total grants from Sehgal Foundation, USA, have been $ 27,312,233 (1,440,720,310).

These grants and other income (interest and office space rental – net of expenses for leased space) were used for water management (28%), agricultural development (23%), rural research (6%), good rural governance (18%), communications and resource mobilization (5%), crop improvement research (11%), and general administration (9%).

FOUNDER TRUSTEES

SURINDER (SURI) M. SEHGAL PhD, is co-founder and chairman of Board of Trustees of S M Sehgal Foundation and Sehgal Foundation in the USA; founder and chair of Hytech Seed, India; founder of William L. Brown Center for Economic Botany at the Missouri Botanical Garden, St. Louis, Missouri, and emeritus trustee of the Garden. He served in executive positions at Pioneer Hi-Bred International (now Corteva Agriscience), Plant Genetic Systems, Belgium (now owned by BASF); as founder, with his wife Edda, of Proagro Group, India; and founder and chair of Misr Hytech Seed, Egypt.

EDDA G. SEHGAL is cofounder and trustee of S M Sehgal Foundation in India and Sehgal Foundation in the USA. She was educated at Hohenstaufen Gymnasium, Goppingen, Germany. With her husband Suri, she cofounded and served actively on the board of Proagro Group in India and of Global Technologies Incorporated, USA, from 1990 to 1998.

Note: Read about the founders of Sehgal Foundation in Seeds for Change: The Lives and Work of Suri and Edda Sehgal by Marly Cornell, available in print or ebook on Amazon.com

BOARD OF TRUSTEES

BEN SEH高尔, PhD, member of the board of directors of Sehgal Foundation in the USA, and board member of the William L. Brown Center at the Missouri Botanical Garden, St. Louis, Missouri, USA.

BHAMY SHENOY, PhD, activist with Mysore Grahakara Parishat, Pratham, and other NGOs.

GANESAN BALACHANDER, PhD, director, former director, Ashoka Trust for Research in Ecology and the Environment, Bangalore, India, and member of Consortium Board of the Consultative Group on International Agricultural Research (CGIAR).

KAMAL BAWA, PhD, distinguished professor of biology, University of Massachusetts, Boston, and founder/president of the Ashoka Trust for Research in Ecology and the Environment, Bangalore, India. www.atree.org.

RAJAT JAY SEHGAL, executive vice president of Sehgal Foundation, former managing director of Hytech Seed India Private Limited, and former managing trustee and executive director of S M Sehgal Foundation.

SUHAS P. WANI, PhD, advisor; Research Program director, Asia Region, and director, ICRISAT Development Center, ICRISAT, Patancheru, Telangana, India (www.icrisat.org).

COUNCIL OF ADVISORS

ANITA ROY, president, Doctor on Call Pvt. Ltd., New Delhi and winner of President’s Medal for Meritorious Service (2005).

GENSUKE TOKORO, professor (special appointment) at the Institute of Innovation Research of Hitotsubashi University, Japan (2008–2014); president and CEO of NAI Inc. and Kyoto Biopharmaceuticals Inc.; and board member of Institute for the study of Panspermia and Astroeconomics.

JAN LEEMANS, PhD, member board of directors, Misr Hytech Seed International, Egypt; Solynta, Wageningen, The Netherlands; and Agrosafe, Gent, Belgium; former research director of Plant Genetic Systems, Belgium.

JANE E SCHUKOSKE, BA, JD, LLM, development consultant based in USA; executive director of US-India Educational Foundation; associate professor at University of Baltimore School of Law; former Fulbright scholar in Sri Lanka; and former CEO of S M Sehgal Foundation (2011-16).

RAMAN K SEHGAL, MBA, managing director and a member of the Board of Directors of Misr Hytech Seed International, Egypt; and a member of the Board of Directors of Hytech Seed, India.

S K VASAL, PhD, plant breeder and geneticist from CIMMYT, World Food Prize laureate, and recipient of Dr. M S Swaminathan Award for Leadership in Agriculture.

TAKAFUMI MATSUI, PhD, professor emeritus, University of Tokyo, and director of the Planetary Exploration Research Center at Chiba Institute of Technology.
