sar aankhon par

SAMARTH VITYA VANI

The project bridges the financial literacy awareness gap in rural areas by providing community radio programming on financial services and schemes.

Since 2017, this partnership has reached over 500,000 people in Haryana, Rajasthan, and Uttar Pradesh.

BACHPAN EXPRESS

The project focused on spreading information about early child marriage and continuing education using community radio.

Through community radio Alfaz-e-Mewat FM 107.8; the message on the topics reached over 225 villages in Nuh district, Haryana.

DCB
BANK

GROUNDWATER DEVELOPMENT AND RAINWATER HARVESTING

The project focuses on water security for households, schools, and agriculture by protecting traditional water bodies, addressing surface water storage concerns, building rainwater harvesting structures to restore groundwater, and promoting water-use efficiency.

Since 2017, the partnership has created water harvesting capacity of more than 200 million liters and reached over 10,000 people in Rajasthan, Haryana, Andhra Pradesh, and Maharashtra.

FLUOR[®]

FLUOR KI PAATHSHAALA

The project provides better learning environments to schoolchildren by renovation of government school infrastructure including boundary wall extensions, gates installation, classroom repairs, and providing benches, kitchen, and toilets, etc.

Since 2016, the partnership has benefitted over 1,000 students in Haryana.

DEVELOP VILLAGES TO DEVELOP INDIA

The project uses an integrated approach to improve farm livelihoods, delivery of key government programs and services, community hygiene and sanitation, access to water, and empowering villagers, especially youth.

Since 2018, the partnership has benefitted over 5,000 people in Haryana.

GRAM UTKARSH

The project builds the capacities of rural communities to lead their own development using an integrated approach that focuses on improving public services delivery, particularly related to education, health, sanitation, farmer's prosperity, and well-being.

Since 2018, the partnership has reached over 2,800 people in Uttar Pradesh.

PROJECT PARIVARTAN

The project improves rural communities in areas of natural resource management, clean energy, health and hygiene, life skills, agriculture livelihoods, and rural infrastructure to create positive change in the lives of villagers, especially adolescent girls, young women and mothers, school-going and dropout children, farmers, and the elderly.

Since 2018, the partnership has benefitted over 10,000 people in Haryana.

WOMEN'S EMPOWERMENT: BUILDING CAPACITIES OF WOMEN FARMERS

The project focuses on empowering women by capacitating women farming community for improved agricultural practices and productivity enhancement, and bridging the information and resource gap between women and men farmers by demonstrating best management practices in agriculture.

This partnership, begun in 2019, benefits 150 small-scale women farmers in Telangana.

UNNAT KRISHI

The project supports competence of progressive farmers in soil nutrient management and high-yielding crop varieties through technical handholding, information dissemination, and liaising with state agricultural departments.

Since 2013, the partnership has benefited over 2,500 farmers in Rajasthan.

MARUTI SUZUKI

Way of Life!

SWACHHTA HAI TO SWASTHYA HAI

The project educates and sensitizes communities on the importance of good hygiene and sanitation practices, engaging them in village development activities with a focus on sanitation.

Since 2015, the partnership has reached over 10,000 people in Haryana.

UDYAMI KRISHAK

The project improves crop productivity of small and marginal farmers to sustain their livelihoods and improve their levels of food security through capacity building with demonstrations of various crop-specific practices and water-saving irrigation practices.

This partnership made in 2019 benefits over 1,000 people in Haryana.

PROJECT VRIDDHI

The project integrates aspects of rural well-being and includes improvements in conserving and harvesting water, farm livelihoods, delivery of public services, education, nutrition, health, and sanitation.

This partnership made in 2019 benefits about 1,500 people of village Rohira in Nuh district, Haryana.

DIGITAL LITERACY TRAINING AND LIFE SKILLS EDUCATION

The project provides digital literacy training and life skills education to rural youth to bridge their knowledge divide, develop self-confidence, learn decision-making, build a positive peer culture, and helps young people understand how village-level institutions and government programs work.

Since 2016, this partnership has benefitted over 750 students in Haryana.

Pernod Ricard India
FOUNDATION

PROJECT SAMRIDHI

The project conserves rainfall to recharge the groundwater table, promotes water-saving irrigation and wastewater management practices; provides digital literacy training and life skills education to youth, and builds capacities of the community to participate actively in village development.

This partnership made in 2019 benefits over 8,000 people in Rajasthan.

KAUSHAL KRISHAK

The project uses holistic solutions to minimize farmer's risks, decrease cultivation costs, and increase farm income, particularly for smallholder farmers, providing advisory and on-site demonstration services to farmers to promote minimal or no tillage in wheat and paddy, improve yields and quality, and reduce input cost. A mobile agri-clinic provides diagnostics and advisory services to the farmers.

Since 2017, the partnership has benefitted over 17,000 people in Bihar.

GRAM UTTHAAN | ADARSH PANCHAYAT BHANDARI | HUMARI PATHSHALA

Project #1 provides holistic solutions to farm families including solar energy use, mechanization of farming practices, balanced nutrition and crop protection, and entrepreneurship for better livelihoods.

Project #2 empowers communities to lead their own development with knowledge of better agronomic practices, government programs and entitlements, to achieve a positive social, economic, and environmental change.

Project #3 transformed two government schools in Bhandari Panchayat into secure, healthy, fun and stimulating learning environments.

Since 2017, the partnership has benefited over 15,000 people in Bihar.
