ANNUAL REPORT 2024-25

S M Sehgal Foundation

The Power of We

Vision

We envision every person across rural India empowered to lead a more secure, prosperous, and dignified life.

Mission

Our mission is to strengthen community-led development initiatives to achieve positive social, economic, and environmental change across rural India.

Our Reach & Impact

5.92 Million People Reached	3,036 Villages	74 Districts	13 States
--------------------------------	-------------------	-----------------	--------------

Data as of March 2025

Message from the Founder

I have always believed that the strength of our nation rests in its villages. Real change begins at the grassroots, when people come together, recognize their own potential, and take ownership of their future. That is when progress lasts, and that is when it truly belongs to the community.

When Edda and I started S M Sehgal Foundation, our vision was simple: to support rural citizens in shaping their own development. Over the years, we have seen how local leadership, once encouraged, becomes a powerful movement. A farmer adopting sustainable practices, a woman leading her panchayat, a youth group standing up for clean water, these are the stories that show us how change takes root.

As we move through FY 24–25, our focus is clear. We want to deepen this spirit of empowerment, ensuring that every effort in water, agriculture, participation of the last mile beneficiary, and capacity building strengthens the ability of communities to stand on their own. Our role is not to lead from the front but to walk alongside, helping people find solutions that fit their lives and their aspirations.

The theme for World NGO Day 2025, “Empowering Grassroots Movements for a Sustainable Future,” highlights the crucial role of community-based organizations in advancing sustainable development and social change, a mission that S M Sehgal Foundation has been dedicated to for the past twenty-six years. The future we see is one where every village is capable, every citizen confident, and every movement led by the people themselves. A sustainable tomorrow will not be built for communities, but with them.

Progress is never static, but when it grows from the power of communities, it carries the promise of lasting impact and a future built on hope.

Suri Sehgal
Founder and Chairperson

Agriculture Development

HELPING FARMERS SUSTAINABLY PRODUCE MORE

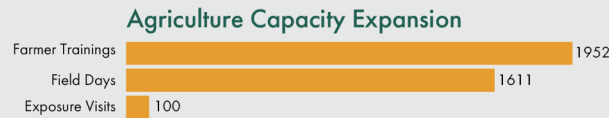

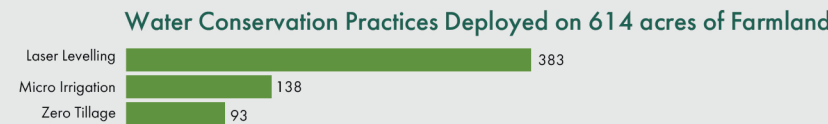

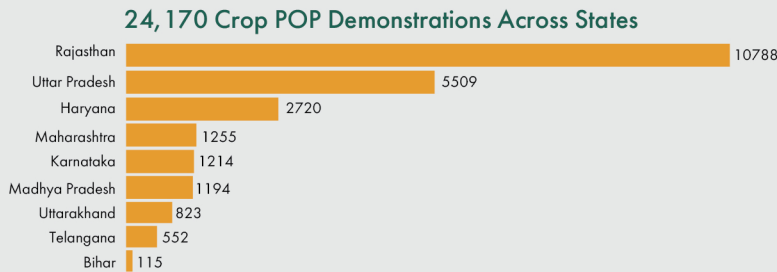

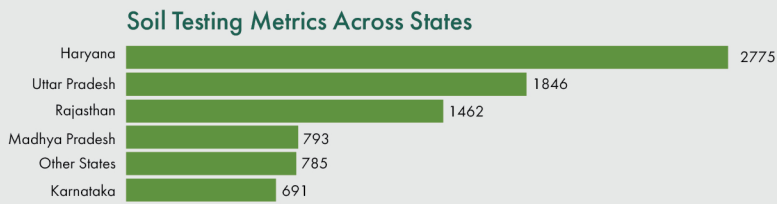

S M Sehgal Foundation's Agriculture Development Program works with farmers as partners in creating better futures. Most farmers in rural India are small or marginal, often facing the weight of high input costs, limited credit, and uncertain markets. With the aim of reaching a large number of farmers, the foundation started working to strengthen Farmer Producer Organizations (FPOs) to help small and marginal farmers move forward together. The foundation helps FPOs pool resources, access credit, secure better prices, and adopt improved farming practices. This support raises productivity and enables farming families associated with FPOs to build more stable and dignified livelihoods.

Vrishabhavati Agriculture Farmer Producer Company began with challenges familiar to many small farmer collectives: low awareness of FPO operations, difficulty in raising capital, and reliance on traditional farming methods. With only 300 members contributing Rs. 3 lakhs in share capital, the organization struggled to meet expectations.

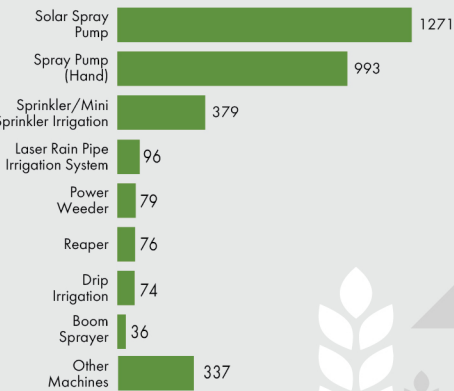

S M Sehgal Foundation partnered with the FPO to strengthen its base. Regular village meetings, technical trainings, and exposure visits introduced members to modern cultivation practices. Over time, membership grew to 1,000 with Rs. 10 lakhs in share capital. The FPO expanded its business by starting an input shop, a custom hiring center, and small-scale processing units. A ragi mill, cold storage facility, and branded sales through the *Amruth* stall boosted both income and visibility. Women members also began to participate actively through apiculture, goat rearing, and *agarbatti* production. A polyhouse for capsicum cultivation added another profitable enterprise.

Water Management

BUILDING
WATER
CONSCIOUS
COMMUNITIES

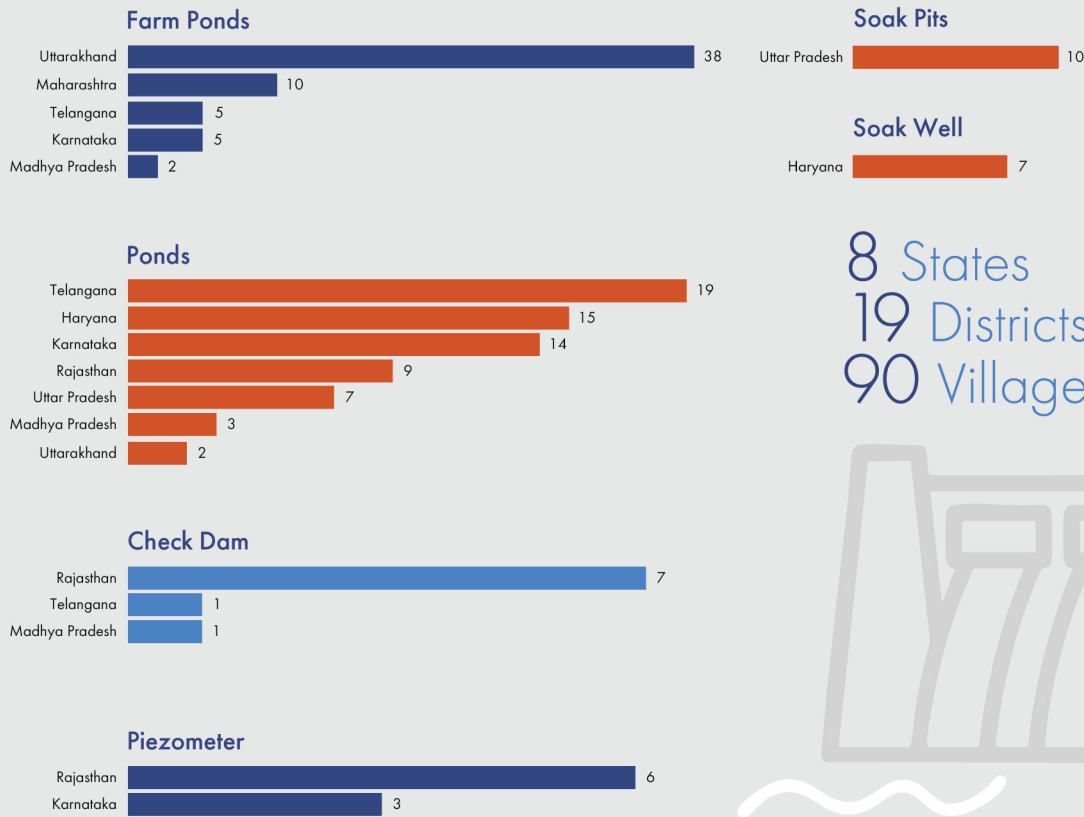

Ensuring water security plays a dual role in securing communities against both floods and droughts. When ponds, tanks, and other traditional water bodies are restored through measures such as desiltation, bund strengthening, and recharge structures, they gain the capacity to hold excess rainfall during heavy downpours, reducing the risk of overflow and flooding. At the same time, these structures allow water to percolate into the ground, replenishing aquifers and ensuring availability during dry months.

S M Sehgal Foundation’s work in Water Management reduces water stress, provides resilience against climate extremes, and creates a reliable source of water security for rural communities.

When torrential rains and swollen streams inundated villages around Vijayawada in September 2024, Atukuru village in Krishna District, Andhra Pradesh, stood out as an exception. A year earlier, under a CSR-supported project, S M Sehgal Foundation brought together the community, panchayat, TUG members, and the irrigation department to revive Vura Cheruvu - the village’s 60-acre pond. Through desiltation, bund strengthening, and the construction of recharge structures, its capacity was enhanced by 60 million litres.

Water Management (FY 2024-25)

Transform Lives one school at a time

PROVIDING
A BETTER
LEARNING
ENVIRONMENT
FOR SCHOOL
CHILDREN

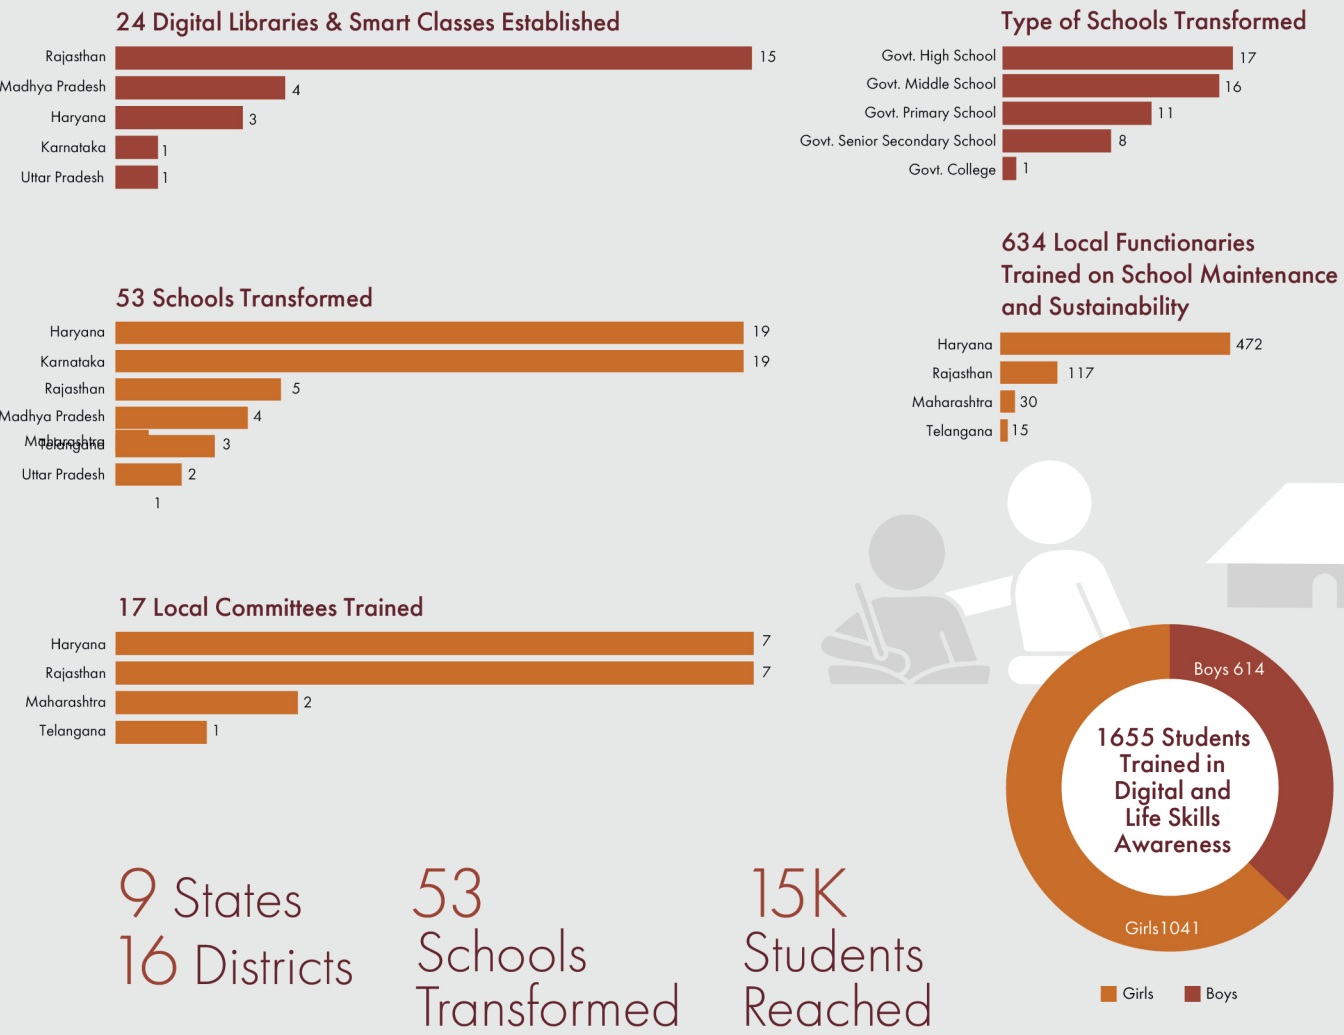

Children in rural India often remain cut off from the digital world, limiting their opportunities to engage with the wider global community. To address this digital gap, S M Sehgal Foundation has introduced digital libraries in rural schools. This initiative is helping students gain access to technology, narrowing the divide, and opening new pathways for advancing girls' education.

Shalu, a Class 11 student at Government Senior Secondary School in Indergarh, Alwar, Rajasthan, hails from a farming family. Her school benefits from a digital library established by S M Sehgal Foundation, providing students with training in digital and life skills. Shalu, was particularly interested in mobile applications and their development. In December 2024, Shalu participated in the Rajasthan Yuva Mahotsav organized by the Rajasthan government. She created a presentation on mobile applications for the digital fair, emphasizing their benefits and limitations.

Transform Lives *One School at a Time* (FY 2024-25)

Local Participation & Sustainability

BUILDING CAPACITIES FOR INCLUSIVE AND SUSTAINABLE DEVELOPMENT

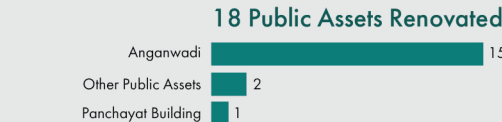

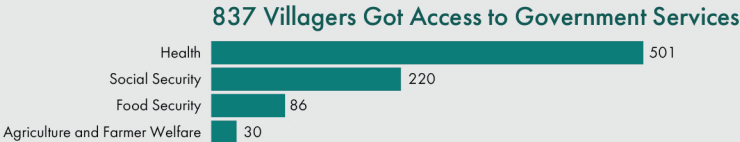

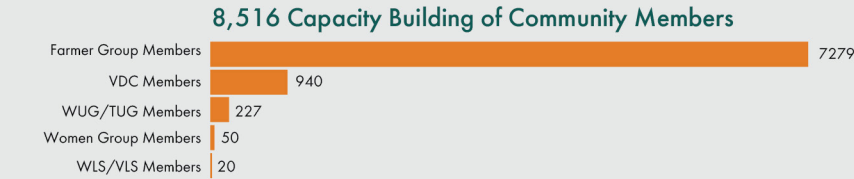

True progress happens when communities unite around a shared purpose. A core approach towards building empowerment within the communities stands on getting the communities to work and build together, which extends beyond the project's completion. Central to Local Participation and Sustainability, the foundation helps ensure that the strength built within communities continues to thrive long after a project ends.

In Badaelaki, a Haryana village of 1,400, families once spent up to Rs. 12,000 a year on tankers because the groundwater was too saline to drink. In 2024 S M Sehgal Foundation set up a Village Leadership School to build local leadership and awareness of entitlements, under a CSR-project. When water surfaced as the community's top concern, villagers petitioned the Deputy Commissioner. Within months, a pipeline and chamber brought clean water under the Jal Jeevan Mission.

Today, safe water flows in Badaelaki, and families put their savings toward children's education and household needs.

Outreach for Development

FACILITATING
DEVELOPMENT
**COMMUNICATION
FOR BEHAVIOUR
CHANGE**

The Outreach for Development (OFD) at S M Sehgal Foundation works to bridge the information divide among all stakeholders, including the grassroots communities, by making knowledge timely, accessible, and relatable. Through digital platforms, social media, podcasts, interactive IEC materials, and Community Radio **Connect** FM 107.8, the team amplifies local voices, shares the Foundation's initiatives, and builds greater visibility for development work.

In rural India, radio remains a trusted companion and a powerful tool for change. The *Kanoon Ki Baat* series on **Connect FM 107.8**, created with District Legal Services Authorities, became a lifeline for villagers seeking clarity on laws that impact daily life. Over 32 live phone-in episodes where judges, lawyers, and para-legal experts addressed questions on child marriage, dowry, women's rights, land laws, and domestic violence. What began as conversations turned into empowerment, with listeners gaining the confidence to seek justice and exercise their rights.

Similarly, *Humare Buzurg, Humara Samaan*, supported by the Ministry of Social Justice and Empowerment, GoI, used 24 episodes to spark dialogue on respect, inclusion, and care for the elderly, transforming attitudes through relatable storytelling.

These initiatives highlight how radio-driven communication goes beyond sharing information. It reshapes mindsets, mobilizes communities, and reinforces the power of communication as a tool for lasting behavior change.

Overall Communications Outreach (FY 2024–25)

More than **300** stories and features appeared in international, national, and regional media.

12 new IEC materials were designed to present critical information in formats suited to diverse audiences.

The SMSF website engaged **92,519** users through organic search, including **13,100** repeat visitors.

Rural Research & Technology Innovation

TRANSLATING
EVIDENCE
TO ACTION

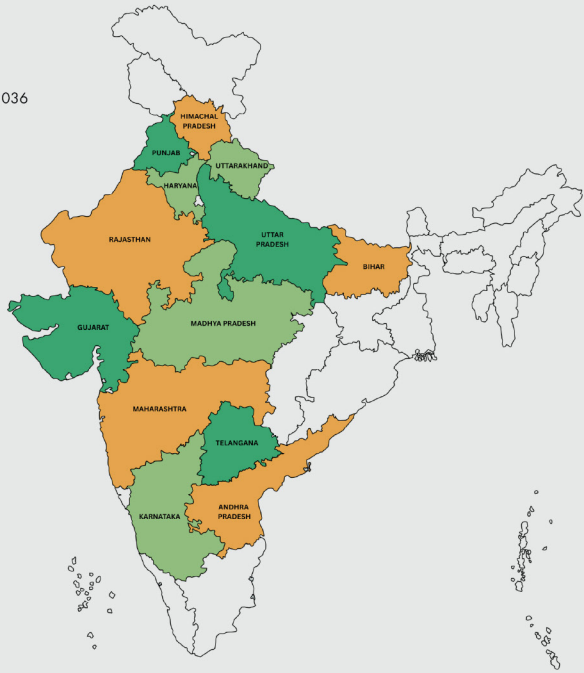

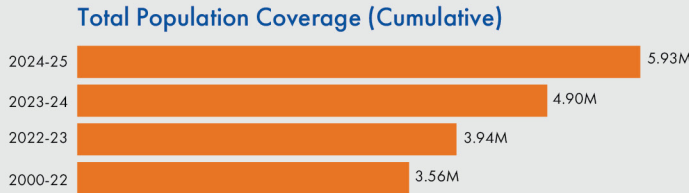

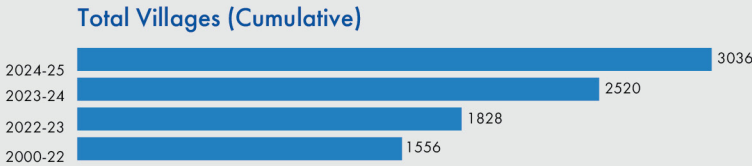

Rural Research assesses the impact that on-ground interventions yield to understand what works and what doesn't. Using a mixed methods approach, research is an integral component of the project lifecycle, from initiation to completion. It helps measure the impact we create on the ground and ensures sustainability in the long run.

Adaptive Technology initiative focuses on piloting innovations in water, agriculture, and education with the purpose of integrating new advancements to enrich developmental solutions and to create impact at scale. Integrating tech-based solutions through the use of artificial intelligence is undertaken to make programs and processes more efficient and result-driven.

Awards & Recognitions

- SMSF received the National Water Awards in the 'Best Civil Society Special Mention' category by the Ministry of Jal Shakti, GoI.
- SMSF won the ISC-FICCI Sanitation Awards 2024 in the 'Best Non-Profit Engagement Model in Sanitation (Rural)'
- SMSF was recognized with the 'Global Sustainability Award' in the SDG 2: Zero Hunger category at the ARC Sustainability Event.
- SMSF Received the EUTECH SDG Awards in the category 'SDG 1: No Poverty'.
- For completing twenty-five years, SMSF was felicitated with a silver plaque by Access Development Services as 'Development Catalyst 2.0'.
- S M Sehgal Foundation was recognized at the Flipkart Foundation's Sampark 2024 event for the impactful initiative, 'Fostering a Green Future: Empowering Children and Youth with Eco-Consciousness'.

- Krishi Vigyan Kendra, Champawat, Uttarakhand recognized S M Sehgal Foundation for its impactful work under HDFC Bank Parivartan, for contributing to agriculture improvements in the region.
- S M Sehgal Foundation was honored by the Rotary Club of Alwar for transforming government schools, and water management initiatives in Alwar, Rajasthan.
- S M Sehgal Foundation received the 'Community Engagement and Social Impact' award, announced during the Sustainable Agriculture Summit 2024.

- World Food Prize Foundation recognized Mr. Pawan Kumar, principal lead of Agriculture Development, S M Sehgal Foundation as one of the Top Agri-Food Pioneers of 2024.
- Transform Lives *one school at a time* program of S M Sehgal Foundation, received the Bhamashah Award in the category of Shiksha Vibhushan by the Directorate of Education, Government of Rajasthan.
- Mr. Shailesh Pant, program lead of Agriculture Development felicitated by the Department of Education, Alwar, Rajasthan, for his consistent efforts to the transfiguration of government schools under the Krishi Jyoti project.
- S M Sehgal Foundation honored with the prestigious CSR Leadership Award by the Indian Chamber of Food and Agriculture, Karnataka.
- S M Sehgal Foundation received the Fortune Leadership Awards in the 'Most Trusted NGO' category.

Board of Trustees

- **Surinder (Suri) M. Sehgal, PhD**, is founder and chairperson of the Board of Trustees of S M Sehgal Foundation and Sehgal Foundation in the US; founder of William L. Brown Center for Economic Botany at the Missouri Botanical Garden, St Louis, Missouri, and an emeritus trustee of the Garden.
- **Edda G. Sehgal** educated at Hohenstaufen Gymnasium, Goppingen, Germany; cofounder of S M Sehgal Foundation in India and Sehgal Foundation in the US; and former board member of Proagro Group, India, and Global Technologies Incorporated, USA (1990-1998).
- **Ganesan Balachander**, PhD, former director of Ashoka Trust for Research in Ecology and the Environment, Bangalore, India, and member of the Consortium Board of the Consultative Group on International Agricultural Research (CGIAR).
- **Anjali Makhija**, MA, CEO; certified corporate director, Institute of Directors (IOD); Leadership Foundational Principles certificate course by HarvardX; Life member of National Association of Professional Social Workers in India (NAPSWI), president of Haryana Agriculture Council of Women's Indian Chamber of Commerce and Industry (WICCI), Internal Committee member for Marks and Spencer India Sourcing Office, and member of advisory committee of University Outreach Program of Maharishi Dayanand University.
- **Bernd Uwe Sehgal**, PhD, member of the board of directors of Sehgal Foundation in the US, and board member of the William L. Brown Center at the Missouri Botanical Garden, St. Louis, Missouri, USA.
- **Rajat Jay Sehgal**, executive vice president of Sehgal Foundation in the US and former managing trustee and executive director of S M Sehgal Foundation.
- **Vicki Denise Sehgal**, MeD, she has served the better part of her professional career as an early childhood educator and community volunteer. Vicki is an impassioned supporter of girls' education and women's empowerment.
- **Bhamy Shenoy**, PhD, associated with Mysore Grahakara Parishat, Pratham, and other NGOs.
- **Suhas P. Wani**, PhD, Research Program director, Asia Region, and director, ICRISAT Development Center, ICRISAT, Patancheru, Telangana, India.

Council of Advisors

- **Jyotsana Bhatnagar**, a CSR practitioner with decades of diverse sectoral experience. She has served in various senior positions, including CSR Advisor at Castrol India, Head of Partnerships at the UN Food Program (India), Head of CSR at British Petroleum Director of CSR and Sustainable Agriculture at Monsanto India, Head of CSR at Cairn India, and Corporate Responsibility Head at British Gas. She was a member of the expert group for the Indo-GIZ Voluntary Principles initiative by the Ministry of Corporate Affairs. Currently, she serves as President, Board at Partners in Change, a consultant to develop CSR portfolios for several companies, and a Senior Advisor at Transform Rural India.
- **Jan Dirk (JD) Geertsema**, author, management consultant, executive coach, and management trainer since 1997, works extensively with management teams in global business, including agriculture, airlines, automotive, biotechnology, chemical, food, graphic arts, manufacturing, and software engineering industries, and with governments of USA, Ukraine, and the Netherlands. JD teaches Leadership and Human Logic at various international universities. He has been supporting S M Sehgal Foundation since 2004, focusing on management and team development.
- **Jan Leemans**, PhD, is a member of the board of directors, Misr Hytech Seed International, Egypt; Solynta, Wageningen, The Netherlands; Agrosafve, Gent, Belgium; and former research director of Plant Genetic Systems, Belgium.
- **Arun Maheshwari** studied at IIT, Mumbai, and IIM, Kolkata, and in the US at Columbia, Stanford, and Wharton. He has worked for McKinsey as a consultant and for Fortune 500 companies, including Tata Consultancy Services, as a senior executive. He founded and managed two software companies in India (1996–2008). After retirement, he has served on multiple listed and private company boards.
- **Vyoma Nair** is executive board adviser to Nucleus, is an expert on international expansion who developed an integrated “one-stop shopping” service model covering multi-country HR, legal, accounting, tax, and compliance services for smaller US tech companies seeking international expansion. She worked with Redback Networks, RedHat Software, and Theorem Clinical Research.
- **K Ratna Prabha**, a distinguished career in public service as a member of the 1981 IAS Karnataka Cadre. Post-retirement in 2019, she co-founded the Ubuntu Consortium (UC), fostering Women Entrepreneurs Associations

that empower small enterprises. UC now operates across 52 associations in 11 states. With extensive experience in IT, Industry & Commerce, Skill Development, and Women Entrepreneurship, she held pivotal roles including Chief Secretary and Additional Chief Secretary in Karnataka, and served in key positions in the Department of Commerce and Industries, Ministry of Women and Child Development, and as Mission Director in the National Mission for Empowerment of Women.

- **Jane E. Schukoske**, BA, JD, LLM, is a higher education and development consultant based in the US. Former positions include executive director of the US-India Educational Foundation, associate professor at the University of Baltimore School of Law, and CEO of S M Sehgal Foundation (2011–16).
- **Raman K. Sehgal**, MBA, managing director and member of the Board of Directors of Misr Hytech Seed International, Egypt, and member of the Board of Directors of Hytech Seed, India.

- **Venkata Subbarao**, Kolli, PhD, is a strategic business leader with extensive experience in agriculture, biosciences, and life sciences, and a seasoned professional and a strategic thinker. He retired as regional president Corteva Agriscience and has served as vice chair for the Federation of Seed Association of India, president of the National Seed Association of India (2011–13), on CII Agriculture Council, and the FICCI Biotechnology Committee.
- **Gensuke Tokoro**, professor (special appointment) at the Institute of Innovation Research of Hitotsubashi University (2008–14); president and CEO of NAI, Inc., and Kyoto Biopharmaceuticals, Inc.; and board member of Institute for the Study of Panspermia and Astroeconomics.
- **S. K. Vasal**, PhD, plant breeder and geneticist from CIMMYT, World Food Prize laureate, and recipient of Dr. M S Swaminathan Award for leadership in agriculture.
